Stirring Speech of Hon Horatio Seymour _Financial Issues of the Day, &c. Albany, Oct. 3.—The Democratic State Convention met to-day, Hon. John T. Hoffman was chosen temporary Chairman. Hon. Horatio Seymour presided. On being conducted to the chair he spoke in substance as follows: We cannot, if we would, escape the problems of the day .-Neither safety, honor nor patriotism will suffer us to stand dumb or inactive in the dark hour of danger. We have put down rebellion, and now we are struggling with revolution. The first was sectional, the last is universal. The first sought to divide our country, the last threatens to destroy it. Mr. S. alluded to the charges against the President and to the charges against each other by members of the House of Representatives. Even the Senate has pursued a policy revolutionary in its tendency and in its blindness, striking suicidal blows at its own existence. Colorado to-day balances 4,000,000 of people in New York and was admitted merely to gain two more votes in the struggle with the Executive.

But a bolder act is in view. Twenty Senators are to be admitted from ten States ately in rebellion, not as representatives of the white people, nor of the blacks, but because they hold the views of a majority of the Senators, and were sent to Washington by their agents. If this revolution is begun, it must go on to its logical and just end. It must not roll on the C., has for a long time been afflicted with necks of the majority of the people and remain there, but numbers must be represented, not rotten boroughs of sham States.
